

## User Instructions

1

Using the large red button,  scan the test barcode on this card. Be sure the green light beam extends horizontally across the entire barcode. When you hear a beep, you have successfully captured the information.

2

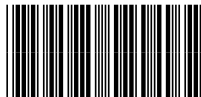

Scan the barcode on the student registration. Make sure you hear the beep. That's all you need to do to ensure you have captured their information.

3

RETURN THIS SCANNER to the fair administrator at the end of the fair.

# Trouble Shooting

1

## **Can't scan barcode...**

Make sure your scanner displays a green light beam that extends completely across the barcode. If you are still having trouble scanning, please see your fair administrator for a replacement scanner.

# Frequently Asked Questions

1

## **Question: How many scans will the scanner hold?**

Answer: 10,000

2

## **Question: How will I know when the scanner is full?**

Answer: The scanner light will turn red and the scanner will beep repeatedly when the red button is pressed.
