STEM College and Career Fairs from the National Association for College Admission Counseling (NACAC) allow high school students to engage with postsecondary institutions, industry, and organizations that focus on careers in science, technology, engineering, and mathematics (STEM).

## GET INVOLVED

- Meet face-to-face with the next generation of STEM job seekers.
- Design, host and/or participate in a *STEMinar* interactive.
- Track students with electronic data post-fair.

# GET INVOLVED

## Exhibit for \$450 per fair. (Approximately 150 exhibit spaces available per fair.)

Open to postsecondary institutions and STEM organizations and companies.

Share resources and information about your STEM-focused degree programs, internships, summer programs, and other activities that support high school students as they prepare for STEM careers.

You receive a table-top exhibit space (6' – 8' table and two chairs) and a complimentary barcode scanner to retrieve leads from interested students.

## Present a STEMinar for \$450 per session/per fair (subject to availability).

Open to STEM Organizations and Companies

Engage students in these interactive sessions by presenting on topics relevant to high school students interested in STEM degrees and careers. Past workshops have focused on getting into a STEM university, funding your STEM education, diversity in STEM, finding a mentor, and hands-on coding classes.

STEMinars are available to approved companies, associations, and sponsors. Price includes a complimentary lead retrieval barcode scanner for use at STEMinars only.
